

Section 1. Identification	
Product identifier	JPS30295-1
Other means of identification	None
Recommended use and restrictions on use	Adhesive
Initial supplier identifier	Adfast
	2685 Diab, Ville Saint-Laurent Quebec H4S 1E7 Canada
	servicemtl@adfastcorp.com
	www.Adfastcorp.com
	T: 514-337-7534
Emergency telephone number/restriction on a	use Canada – CANUTEC 24 hour number 613-996-6666
Section 2. Hazard identification	

Classification of hazardous product (name of the category or subcategory of the hazard class)

Skin irritation (Category 2) Sensitization – Skin (Category 1) Eye irritation (Category 2A)

Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)

Attention

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

P260 Do not breathe dust/fume/gas/mist/vapours/spray.

P264 Wash hands/nails/face thoroughly after handling.

P272 Contaminated work clothing should not be allowed out of the workplace.

P280 Wear gloves/protective clothing/eye protection/face protection.

P302+P352 IF ON SKIN, Wash with plenty of water for several minutes.

P333 + P313 IF SKIN irritation or rash occurs: Get medical attention.

P362+P364 Take off contaminated clothing and wash it before reuse.

P305 + P351 + P338 IF IN EYES, Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 If eye irritation persists: Get medical attention.

P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.

Other hazards known None

Section 3. Composition/information on ingredients		
Chemical name (common name/synonyms)	CAS number or other	Concentration (%)
Phenolic resin	25085-50-1	1-5
2-(2-butoxyethoxy) ethyl acetate	124-17-4	1-5
Aluminium chloride	7446-70-0	< 2

# Section 4. First-aid measures

Inhalation IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell. If experiencing respiratory symptoms: Call a doctor.

Ingestion

IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is

rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. **Skin contact** IF ON SKIN, Wash with plenty of water for several minutes. (15-20) IF SKIN irritation or rash occurs: Get medical attention. IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. **Eye contact** Continue rinsing. If eye irritation persists: Get medical attention. Most important symptoms and effects (acute or delayed) Causes serious eye irritation. Causes skin irritation. Indication of immediate medical attention/special treatment In all cases, call a doctor. Do not forget this document.

SAFETY DATA SHEET

## Section 5. Fire-fighting measures

Specific hazards of the hazardous product (hazardous combustion products) Carbon oxides and other irritant/toxic gases and fumes.

### Suitable and unsuitable extinguishing media

In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.

## Special protective equipment and precautions for fire-fighters

During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

### Methods and materials for containment and cleaning up

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

### Section 7. Handling and storage

### Precautions for safe handling

## Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Do not breathe dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

### Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

### Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values) Exposure limits: Dust – PEL-TWA 15 mg/m<sup>3</sup> (total dust) & 5 mg/m<sup>3</sup> (respirable fraction);

# Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

# Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. We recommend wearing chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact during all handling operations. We recommend wearing protective chemical splash goggles/safety glasses or other to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

JPS30295-1

## Section 9. Physical and chemical properties

Appearance, physical state/colour White-yellow liquid Odour Characteristic	Vapour pressure Not available Vapour density Not available
Odour threshold Not available	Relative density Not available
рН 4	Solubility Soluble
Melting/freezing point 0 °C (32 F)	Partition coefficient - n-octanol/water Not available
Initial boiling point/range 100°C (212 F)	Auto-ignition temperature Not available
Flash point > 93 °C (199 F)	Decomposition temperature Not available
Evaporation rate Not available	Viscosity Not available
Flammability (solids and gases) Not available	VOC Not available
Upper and lower flammability/explosive limits Not available	Other None known

### Section 10. Stability and reactivity

#### Reactivity

Does not react under the recommended storage and handling conditions prescribed.

### **Chemical stability**

Stable under the recommended storage and handling conditions prescribed.

Possibility of hazardous reactions

None

Conditions to avoid (static discharge, shock or vibration) None

Incompatible materials None

Hazardous decomposition products None known

#### Section 11. Toxicological information

**Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)** Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation.

### Symptoms related to the physical, chemical and toxicological characteristics Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing;

### Delayed and immediate effects (chronic effects from short-term and long-term exposure)

Skin Sensitization – Possible; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.

### Numerical measures of toxicity (ATE; LD<sub>50</sub> & LC<sub>50</sub>)

CAS 124-17-4 LD<sub>50</sub> Oral - Rat – 6500 mg/kg; LC<sub>50</sub> Inhalation - Rat - 4 h – 72500 mg/m<sup>3</sup>; LD<sub>50</sub> Dermal - Rabbit – 14500 mg/kg; CAS 7446-70-0 LD<sub>50</sub> Oral - Rat – 3450 mg/kg; ATE not available in this document.

Section 12. Ecological information		
Ecotoxicity (aquatic and terrestrial informat	tion) No data available for this product	
Persistence and degradability No data	a available	
Bioaccumulative potential No data ava	ilable	
Mobility in soil No data available		
Other adverse effects No data available		

## Section 13. Disposal considerations

Information on safe handling for disposal/methods of disposal/contaminated packaging Dispose of contents/container into safe container in accordance with local, regional or national regulations.			
Section 14. Transport information			
UN number; Proper shipping name; Class(es); P Not regulated	acking group (PG) of the TDG Regulations		
UN number; Proper shipping name; Class(es); P Not regulated	acking group (PG) of the 49 CFR (USA)		
UN number; Proper shipping name; Class(es); P Not regulated	acking group (PG) of the IMDG (maritime)		
UN number; Proper shipping name; Class(es); Pr Not regulated	acking group (PG) of the IATA (air)		
Special precautions (transport/conveyance)	None		
Environmental hazards (IMDG or other)	None		
Bulk transport (usually more than 450 L in capa	city) Possible		
Section 15. Regulatory information			
Safety/health Canadian regulations specifics	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).		
Environmental Canadian regulations specifics	Refer to Section 3 for ingredient(s) of the DSL		
United States TCSA information: Refer to the ing National Fire Protection Association (NFPA): HEALTH: 1 FLAMMABILITY: 1 INSTABILI HAZARD SCALE: 0 = Minimal 1 = Slight 2 = M	regulated according to OSHA (29 CFR). ency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14. redients listed in Section 3. TY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.		

## Section 16. Other information

Date of the latest revision of the safety data sheet April 16, 2018 version 1 (NSS ENTREPRISE INC.)

Safety Data Sheets from manufacturer/supplier & from Canadian Centre for Occupational Health and Safety, CCOHS. References
