

ADBOND 8916

Sprayable solvent base NF contact adhesive

DESCRIPTION

ADBOND 8916 is a slow-setting sprayable, non-flammable contact adhesive specially formulated for bonding polyurethane foam to the upholstery industry. ADBOND 8916 is also used for bonding felt, cork, fabric, cardboard or sheet metal. For the bonding of expanded polystyrene insulation consult your representative. **ADBOND 8916 can not be applied by roller or brush.**

PHYSICAL PROPERTIES

Product type	Formulated synthetic rubber based
Consistency	Thin liquid
Color	Red (8916R) Dark amber (8916C)
Odeur	Solvent
Viscosity	150 – 200 cPs @ 25°C
Specific gravity	1.2 (kg/L)
Solids	30 – 35 (%)
Open time	20 – 30 minutes (selon la température / humidité)
Shelf life	6 mois

METHOD OF USE

Surfaces must be clean and free from dust, grease or other contaminants. Use ADSEAL CLEANER 6003 for cleaning. Allow to evaporate 20 minutes before application of the adhesive. Spray the adhesive on both surfaces and wait until the solvent has evaporated (about 20 to 30 minutes depending on temperature and humidity). Assemble the 2 surfaces together and apply uniform pressure over the entire surface to obtain good adhesion.

APPLICATION

- Mattress
- Furniture upholstery
- Industrial steel door

STORAGE

6 months from date of production in the original unopened containers. Protect from freezing. Keep in a hermetic closed container to avoid any contamination.

CLEANING

Equipment or overflows can be cleaned with Adsolv 6002 or Adsolv 6090. Disposal of cleaning solvents and adhesive residues should be sent to a certified hazardous waste disposal company.

ADBOND 8916
Sprayable solvent base NF contact adhesive**CAUTION**

Extremely harmful. Ensure adequate ventilation during spraying. Always consult sds before using the adhesive. For industrial use only. For more information, please contact your technical representative.
