

*****IMPORTANT NOTICE*****

Structural application for curtain walls

This notice forms an integral part of the technical data sheets for products mentioned below. In the event of any incompatibility, material or perceived, between the contents of this notice and the aforementioned technical data sheets, the contents of this notice must take precedence in all circumstances and without exception.

Adseal Structural 4940 Series is only approved by Adfast for structural applications on two-sided (2) or four-sided (4) curtain walls, exclusively between anodized aluminium mullions and glass.

Adseal DWS 4580 Series is only approved by Adfast for structural applications on two-sided (2) curtain walls, exclusively between anodized aluminium mullions and glass.

Any application of the aforementioned products on other surfaces, including but not limited to bare metals, any painted surface or any other surface not specifically approved prior in writing by Adfast, is absolutely prohibited by Adfast in any circumstances.

Adfast will not under any circumstances and/or conditions offer any warranty on aforementioned products used in a manner not consistent with this notice and will decline liability for any and all damages that may occur, if applicable.

Please note that it is your responsibility to inform interested persons of the foregoing without any additional delay.

I undersigned, _____, authorized representative of _____, do confirm that I have received a copy and been informed of the contents of this notice.
