

#### Section 1. Identification

Product identifier 4550SL

Other means of identification None

Recommended use and restrictions on use Sealant

Initial supplier identifier Adfast

2685 Diab, Ville Saint-Laurent Quebec H4S 1E7 Canada

servicemtl@adfastcorp.com

www.Adfastcorp.com

T: 514-337-7534

Emergency telephone number/restriction on use

Canada - CANUTEC 24 hour number 613-996-6666

# Section 2. Hazard identification

Classification of hazardous product (name of the category or subcategory of the hazard class)

Sensitization - Skin (Category 1)

Eye irritation (Category 2A)

Specific target organ toxicity - repeated exposure (Category 2)

Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)

#### Warning

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

H373 May cause damage to organs through prolonged or repeated exposure.

P260 Do not breathe dust/fume/gas/mist/vapours/spray.

P264 Wash hands/nails/face thoroughly after handling.

P272 Contaminated work clothing should not be allowed out of the workplace.

P280 Wear gloves/protective clothing/eye protection/face protection.

P302+P352 IF ON SKIN, Wash with plenty of water for several minutes.

P333 + P313 IF SKIN irritation or rash occurs: Get medical attention.

P362+P364 Take off contaminated clothing and wash it before reuse.

P305 + P351 + P338 IF IN EYES, Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 If eye irritation persists: Get medical attention.

P314 Get medical attention if you feel unwell.

P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.

Other hazards known

None

# Section 3. Composition/information on ingredients

Chemical name (common name/synonyms)CAS number or otherConcentration (%)\*Butan-2-one O,O',O''- (methylsilylidyne)trioxime22984-54-9< 5</td>N-(3-(trimethoxysilyl) propyl)ethylenediamine1760-24-3< 1</td>Butan-2-one O,O',O''- (vinylsilylidyne)trioxime2224-33-1< 1</td>\* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s).

# Section 4. First-aid measures

Inhalation

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical attention if you feel unwell.

Ingestion IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly

losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses

of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.

Skin contact IF ON SKIN, Wash with plenty of water for several minutes. (15-20) IF SKIN irritation or rash occurs: Get medical

attention.

Eye contact IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do.

Continue rinsing. If eye irritation persists: Get medical attention.

Most important symptoms and effects (acute or delayed)

Causes serious eye irritation.

In all cases, call a doctor. Do not forget this document.

### Section 5. Fire-fighting measures

#### Specific hazards of the hazardous product (hazardous combustion products)

Carbon oxides and other irritant/toxic gases and fumes.

## Suitable and unsuitable extinguishing media

In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.

# Special protective equipment and precautions for fire-fighters

During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

#### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

#### Methods and materials for containment and cleaning up

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

# Section 7. Handling and storage

### **Precautions for safe handling**

Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Do not breathe dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

# Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

### Section 8. Exposure controls/Personal protection

# Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: Dust – PEL-TWA 15 mg/m³ (total dust) & 5 mg/m³ (respirable fraction);

#### **Appropriate engineering controls**

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

### Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. We recommend wearing chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact during all handling operations. We recommend wearing protective chemical splash goggles/safety glasses or other to

prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

# Section 9. Physical and chemical properties

Appearance, physical state/colour

Various colour paste/liquid

**Odour** Characteristic

Odour threshold Not available

pH Not available

Melting/freezing point Not available

Initial boiling point/range Not available Flash point > 93°C

Evaporation rate Not available

Flammability (solids and gases) Not available

Upper and lower flammability/explosive limits

Not available

Vapour pressure Not available Vapour density Not available

Relative density Not available

Solubility Not available

Partition coefficient - n-octanol/water Not available

Auto-ignition temperature Not available Decomposition temperature Not available

Viscosity Not available

VOC Not available
Other None known

### Section 10. Stability and reactivity

# Reactivity

Does not react under the recommended storage and handling conditions prescribed.

#### **Chemical stability**

Stable under the recommended storage and handling conditions prescribed.

#### Possibility of hazardous reactions

None known

#### Conditions to avoid (static discharge, shock or vibration)

None known

#### Incompatible materials

Oxidizing materials; etc.

#### **Hazardous decomposition products**

None known

# Section 11. Toxicological information

#### Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)

May cause an allergic skin reaction. Causes serious eye irritation. May cause damage to organs through prolonged or repeated exposure.

#### Symptoms related to the physical, chemical and toxicological characteristics

Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing;

#### Delayed and immediate effects (chronic effects from short-term and long-term exposure)

Skin Sensitization - Possible;

Respiratory Sensitization - No data available;

Germ Cell Mutagenicity – No data available;

Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA;

Reproductive Toxicity - No data available;

Specific Target Organ Toxicity — Single Exposure – No data available;

Specific Target Organ Toxicity — Repeated Exposure – Possible;

Aspiration Hazard – No data available;

Health Hazards Not Otherwise Classified - No data available.

# Numerical measures of toxicity (ATE; LD<sub>50</sub> & LC<sub>50</sub>)

CAS 13822-56-5 LD $_{50}$  Oral, Rat 2970 mg/kg; LD $_{50}$  Dermal, Rabbit 11300 mg/kg;

ATE not available in this document.

# Section 12. Ecological information

Ecotoxicity (aquatic and terrestrial information)

No data available for this product

Persistence and degradability No data available

Bioaccumulative potential No data available

Mobility in soil No data available

#### Other adverse effects No data available

# Section 13. Disposal considerations

#### Information on safe handling for disposal/methods of disposal/contaminated packaging

Dispose of contents/container into safe container in accordance with local, regional or national regulations.

# Section 14. Transport information

UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations

Not regulated

UN number; Proper shipping name; Class(es); Packing group (PG) of the 49 CFR (USA)

Not regulated

UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)

Not regulated

UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)

Not regulated

Special precautions (transport/conveyance) None

Environmental hazards (IMDG or other) None

Bulk transport (usually more than 450 L in capacity) Possible

# Section 15. Regulatory information

Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in

accordance with the hazard criteria of the Hazardous Products Regulations (HPR).

Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL

# Safety/health/environmental outside regulations specifics

United States OSHA information: This product is regulated according to OSHA (29 CFR).

United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.

United States TCSA information: Refer to the ingredients listed in Section 3.

National Fire Protection Association (NFPA):

HEALTH: 1 FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.

HAZARD SCALE: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe

Proposition 65: This product does not contain a chemical known to the State of California to cause cancer or other reproductive harm.

# **Section 16. Other information**

Date of the latest revision of the safety data sheet October 30, 2018 version 1 (NSS ENTREPRISE INC.)
